Subject Index

A

Abdominal distension, Ogilvie syndrome, rare complication of gynecologic surgery, 3
Abdominal hysterectomy. *see* Hysterectomy
Abdominal pain, urinary retention and dysuria, case report, 41
Adhesiolysis, comparison of Harmonic Scalpel to sharp dissection, rabbit model, 285
Adhesion reformation, comparison of Harmonic Scalpel to sharp dissection, rabbit model, 285
American Urogynecologic Society, abstracts of, 199
Anterior flap, hemipelvectomy, experience with performance, 63
Anti-incontinence surgery
  corticosteroids to prevent recurrent obstruction after vaginal urethrolysis, 189
  diagnosis and treatment of delayed voiding after, 289
Appendicovesicostomy, continent and incontinent bladder augmentation and diversion, 91
Augmentation, continent and incontinent bladder augmentation and diversion, 91

B

Bladder neck, modifications of support during vaginal parturition, spontaneously and forceps-assisted deliveries, 159
Bladder outlet obstruction
  corticosteroids to prevent recurrence, after vaginal urethrolysis, 189
  diagnosis and treatment of delayed voiding, after anti-incontinence surgery, 289
Book reviews, 45, 145, 195
Bowel obstruction, after vaginal hysterectomy and bilateral oophorectomy, 193
Brachytherapy, vaginal, abdominal hysterectomy and, after hysterectomy, 125

C

Case reports
  chronic abdominal pain, urinary retention and dysuria, 41
  desmoid tumors, pelvis and abdominal wall, 297
  self-inflicted vaginal trauma, 129
  urethral stricture, 59
  vaginal evisceration, after abdominal hysterectomy and vaginal brachytherapy, 125
Colon, acute pseudoobstruction, postoperative complication of gynecologic surgery, 3
Colpocleisis, Le Fort colpocleisis, pelvic organ prolapse in elderly woman, 83
Colpoperincorrhaphy, fascial posterior colpoperineorrhaphy, 279
Colposacropexy, mesh or collagen implant, titanium bone anchors and, sacral segments 3 and 4, 9
Complications
  anterior flap hemipelvectomy, 63
  postoperative, acute pseudoobstruction of colon, 3
  small bowel obstruction after vaginal hysterectomy and bilateral oophorectomy, 193
Constipation, pathophysiology and pharmacology, Fellows Lecture Series, 149

D

Defecatory dysfunction, Fellows Lecture Series, 149
Delivery, modifications of bladder neck support during, 159
Desmoid tumor, pelvis and abdominal wall, case report, 297
Diarrhea, pathophysiology and pharmacology, Fellows Lecture Series, 149
Döderlein technique, appropriate technique for vaginal hysterectomy, 133
Dysuria, urinary retention and, chronic lower abdominal pain, case study, 41

E

Editorial, 1
Enterocele, fascial posterior colpoperineorrhaphy, 279

F

Fascia, posterior colpoperineorrhaphy, 279
Fellows Lecture Series
  colo-rectal-anal pathophysiology and pharmacology, 149
  pelvic anatomy, 103
Fibromatosis, case report, 297

G

Genital self-mutilation, self-inflicted sharp penetrating vaginal trauma, case report, 129
Gracilis flap, myocutaneous, repair of massive vesicovaginal fistula, 19
Gynecologic surgeons, training, 179

H

Harmonic Scalpel, comparison to sharp dissection, adhesion reformation in a rabbit model, 285
Heaney technique, appropriate technique for vaginal hysterectomy, 133
Hemipelvectomy, anterior flap, experience with performance, 63
Historical perspective, radical perineal prostatectomy
Hysterectomy
  abdominal, *versus* vaginal route, 69
  vaginal
    versus abdominal route, 69
    evisceration after, case report, 125
    pelvic organ prolapse and, practice patterns, 167
    selecting appropriate technique for, 133
    small bowel obstruction after, 193
Hysterosacropexy, mesh or collagen implant, titanium bone anchors and, sacral segments 3 and 4, 9

I

Ileovesicostomy, continent and incontinent bladder augmentation and diversion, 91
Ileocystoplasty, continent and incontinent bladder augmentation and diversion, 91
Incontinence
  stress urinary, tension-free vaginal tape procedure, 75
  urinary
    interpretation of concept of cure, 273
    modifications of bladder neck support, during vaginal parturition in spontaneously and forceps-assisted deliveries, 159
    pelvic floor dysfunction and, multidisciplinary team approach, 23
International Society of Pelvic Neuromodulation, abstracts of, 307

L

Laparoscopically assisted vaginal hysterectomy (LAVH), *versus* abdominal route, 69

M

Magnetic resonance imaging, pubococcygeus muscle detachment from the pubic bone, women with

symptomatic anterior vaginal compartment prolapse, 173

O

Ogilvie syndrome, postoperative complication of gynecologic surgery, 3
Oophorectomy, small bowel obstruction after, 193
Outcome, interpretation of concept of cure, 273

P

Paravaginal wall defects, transvaginal and retropubic repair, cadaveric model, 15
Pelvic floor dysfunction
medical student exposure to, 37
multidisciplinary team approach, 23
Pelvic organ prolapse
Le Fort colpocleisis as treatment for, older women, 83
pelvic floor dysfunction and, multidisciplinary team approach, 23
surgery, practice patterns, 167
Pelvis, anatomy, Fellows Lecture Series, 103
Perineosonography, modifications of bladder neck support, during vaginal parturition, 159
Practice patterns
multidisciplinary team approach, pelvic floor dysfunction, 23
vaginal hysterectomy and pelvic organ prolapse surgery, 167
Prostatectomy, radical perineal, history, 49
Pubic bone, pubococcygeus muscle detachment from, in vaginal compartment prolapse patients, 173
Pubococcygeus muscle, detachment from the pubic bone, women with symptomatic anterior vaginal compartment prolapse, 173

Q

Quality of life
interpretation of concept of cure, 273
Le Fort colpocleisis, pelvic organ prolapse in elderly woman, 83
Questionnaire, what do women want? interpretation of concept of cure, 273

R

Rectocele, fascial posterior colpoperineorrhaphy, 279

S

Society of Gynecologic Surgeons, abstracts of, S1–S34
Staple obstruction, small bowel, after vaginal hysterectomy and bilateral oophorectomy, 193
Steroids, prevention of recurrent obstruction after vaginal urethrolysis, 189
Stress incontinence, tension-free vaginal tape procedure, without preoperative urethral hypermobility, 75
Symptoms, interpretation of concept of cure, 273

T

Techniques
anterior flap hemipelvectomy, 63
pelvic floor dysfunction, multidisciplinary team approach, 23
suprapubic approach, repair of massive vesicovaginal fistula, 19
transvaginal and retropubic repair, paravaginal defects, 15
for vaginal hysterectomy, 133
Tension-free vaginal tape, clinical outcome of, without preoperative urethral hypermobility, 75
Training
gynecologic surgery, 179
medical students, exposure to pelvic floor dysfunction, 37
Treatment, interpretation of concept of cure, 273

U

Urethral hypermobility, tension-free vaginal tape procedure, without preoperative urethral hypermobility, 75
Urethral obstruction, corticosteroids to prevent recurrence, after vaginal urethrolysis, 189
Urethral stricture, case report, 59
Urethrolysis, vaginal, recurrent obstruction after, corticosteroids for, 189
Urinary retention, dysuria and, chronic lower abdominal pain, case study, 41

V

Vagina, anatomy and physiology, 263
Vaginal evisceration, after hysterectomy and brachytherapy, 125
Vaginal hysterectomy. *see* Hysterectomy
Vaginal prolapse
Le Fort colpocleisis, feasible treatment option elderly woman, 83
pubococcygeus muscle detachment from the pubic bone and, 173
Vaginal trauma, self-inflicted, case report, 129
Vaginal vault prolapse, colposacropexy for prevention of, 9
Vesicovaginal fistula
self-inflicted sharp penetrating vaginal trauma, case report, 129
suprapubic approach, myocutaneous gracilis muscle flap in, 19
